Alice Longworth Says

(Special To The News)
BEVERLY HILLS, Aug. 13.—The idea of a conference between the president and the governors of states in the drought area is an excellent one, and Governor Landon immediately signified his approval of the project and his intention of attending.

A candidate for the presidency, or a president-elect, should at least be on conference terms with the president whom he may or will succeed. If Mr. Roosevelt had accepted Mr. Hoover's invitation to confer in the winter of 1933, bank failures that wiped out the savings of millions of citizens might have been averted.

Conference between the president and his leading opponent will set a wholesome precedent, but the immediate results in dealing with the drought and its consequences are the really important features of the forthcoming conference.

Governor Landon has had a lifetime of experience in a state peculiarly subject to lack of rainfall. This experience placed at the disposal of the present administration may prevent a repetition of such agricultural blunders as have characterized the New Deal regime up to date.

Reserve Top Floor Suite For Landon

One of The Castle's "choicest" suites, high up in the hotel, will be the week end "home" of Gov. Alf M. Landon when he comes on August 22 to open his presidential campaign at West Middlesex.

Above the multitude that will assemble in the hotel while he is stopping here, the Republican standard bearer will find welcomed isolation and quiet and a spot to carry on important conferences with distinguished party leaders.

Plans Ready
The hotel staff today had plans ready for having the Kansas governor's quarters "fit and ready" sometime before he reaches the hotel.

He is due here sometime on Saturday evening, it is thought. He may even arrive late in the afternoon. Whenever his special returns from his birthplace village, he will be driven by automobile direct to the hotel.

The excitement which the coming of a presidential candidate brings pervaded the air at the hotel.

Fires Still Rage Through Northwest

(International News Service)
DULUTH, Minn., Aug. 13.—A dense cloud of smoke obscured the sun here today as fire, fanned by hot winds, roared unabated through the timberlands of Northern Minnesota and Wisconsin.

Handicapped by lack of equipment, manpower, and the long absence of rain, exhausted fire fighters struggled vainly to check the flaming onslaught.

Residents of the communities of Fairbanks, Basset and Toimi prepared to evacuate as the wall of flames rolled relentlessly toward their homes in the Markham-Palo area where the charred body of one man has already been found.

Fire Fighters Exhausted

Additional men were rushed to the aid of 400 fighters battling a blaze at Pequaywan lake, 25 miles southeast of here, as the fire jumped control lines and began spreading through the dry as tinder timberland.

Firefighters raced raging flames in the sandstone area, seeking to get ahead of the fire and build firebreaks. Near Nogas a new conflagration raged, out of control. Another blaze was reported at Cruiser lake.

Along the Arrowhead river, north of Hoyland, fire is sweeping over hundreds of acres of timberland, while in the dense forest of the Moose Bay region more than 10 fires are burning.

Commanded trucks moved families from the village of Hawthorne, Wis., and other nearby communities as fire in the Brule National forest jumped control lines and roared unabated through the pine forest.

Minnesota officials were frankly pessimistic over the fire situation and expressed fears of a repetition of the great Moose river fire of 1918 when damage amounted to more than \$60,000,000.

By WILLIAM K. HUTCHINSON
International News Service Staff Correspondent
ESTES PARK, Colo., Aug. 13.—Resting before undertaking the arduous of a vigorous presidential campaign, Governor Alfred M. Landon was vacationing today with his family high in the Colorado Rockies.

The governor planned a week's rest on the McGraw ranch, deep in the Devil's Gulch country, 80 miles north of Denver. Mrs. Landon and his three children, Peggy Ann, Nancy Jo and Jackie Cobb, were with him.

Landon will fish, play with the children and yet find time to whip three speeches into final form for delivery on his first campaign trip into Pennsylvania and New York late this month. He brought rough drafts of the speeches with him, but will perfect them under the pines on the ranch.

Franklin Stack Rebuilding Job To Start Soon

School Board Accepts Bid Of Pittsburgh Company At Price Of \$2800

STACK STRUCK BY LIGHTNING

Ben Franklin junior high school's lightning-wrecked smoke stack is to be rebuilt from the roof line 62 feet up into the air and the work will begin almost immediately, providing Pennsylvania's state superintendent of public instruction at Harrisburg stamps his approval on the erection bid which the board of education indicated as its choice last night.

An act of assembly provides that when an "emergency" prevails the board may pass up advertising for bids and secure three bids of their own for submission to the state school superintendent.

Three Bids
Three were submitted to the board here last night but the estimate of \$2,800 of the Alphons Custodis Chimney Construction company, Pittsburgh, its cost for tearing down the wrecked stack and erecting the new one, was preferred.

The Pittsburgh firm offered to do the work for \$2,800 if the board at the same time approved its bid of \$120 for installing a lightning rod system on the stack. The lightning rods were ordered.

Albert J. Schroth, district sales manager for the Alphons Custodis company, told the board that if its bid were accepted at Harrisburg the work will be finished before October 1. Should cold weather set in sooner, engineers of that company will arrange for heating the huge school even if the stack is still under construction.

The 112-foot brick chimney was struck by the lightning bolt in a storm July 23.

Fire Damage At Pittsburgh Is Set At \$50,000

Entire City Block In East End District Is Threatened By Raging Flames

(International News Service)
PITTSBURGH, Aug. 13.—A fire which for a time threatened an entire city block in the East End district was brought under control early today after wrecking at least one building and causing damage estimated at \$50,000.

Fifty feet high at times, the flames defied every piece of fire apparatus in the district, and a small army of firemen for almost two hours before being subdued. Origin of the blaze was not immediately determined.

Six families were routed from a nearby apartment house as the fire spread from the building occupied by two automobile concerns. No one was reported hurt.

Firemen were endangered momentarily when the roof of the blazing edifice collapsed. When finally extinguished, the fire left the building a skeleton of steel and stone.

Aerial Attack Feared As Rebels Mass Twenty-five Airplanes

(International News Service)
Based on Seville, two wings of Gen. Francisco Franco's Rebel army of Foreign Legionnaires and Moors struggled today towards Madrid, one from Badajoz and the other from the Cordova sector, fighting every inch of the way against determined leftist volunteers.

Irun and San Sebastian in the Bay of Biscay were the scene for a third day, of a desperate battle, with the government reporting the Rebels checked, but the insurgents claiming capture of the road between the two cities. Other developments were:

GRANADA—Loyalist columns from Malaga and Jaen united, capturing villages 30 miles from Granada.

SEVILLE—Gen. Franco debated decisive air raid on Madrid with German and Italian airmen. Leftists retreat from Cazalla.

MADRID, Aug. 13.—Ten thousand Rebel Foreign Legionnaires and Moors yelling wild desert war-cries were locked in battle with Mobile government troops today for possession of the roads leading from Merida and Cordova to Madrid, while in the north for the third successive day 15,000 insurgents fought with heavy losses for Irun and San Sebastian.

War Council
Viewing the heavy bloodshed in the seeming deadlock from his base at Seville, General Francisco Franco, the Rightist leader, held a war council with his German and Italian military advisors, planning, it was said, to dispatch his formidable fleet of 25 German and seven Italian fighting planes for a decisively shattering raid on Madrid.

New Deficiency May Reach Half Billion

By L. W. MEREDITH
International News Service Staff Correspondent
WASHINGTON, Aug. 13.—At the present rate of spending work relief funds, with the burden of the worst drought in history adding to the cost, the administration today faced the necessity of calling for an additional \$300,000,000, to complete the fiscal year ending June 30 next.

By January 1, more than two-thirds of the new \$1,425,000,000 work relief appropriation will have been spent under the present rate of spending.

Mounting Daily
The drought, already costing \$5,900,000 a month through WPA and resettlement, administration expenditures alone, and with demands for aid for ruined farmers mounting daily, may create a deficiency even greater than the \$300,000,000 now faced, officials admitted.

This condition was revealed by a survey of the chief work relief agencies—WPA and RA.

Neither WPA nor the CCC share in the work relief appropriation. PWA is existing only on past appropriations, with authorization to use \$300,000,000 of its own revolving funds for the new program. CCC was given a direct appropriation by congress. Other regular agencies (Continued On Page Two)

WRITE FINIS TO ASTOR CASE

Film Celebrities Breathe Easier

Dr. Thorpe Agrees To Settlement Of Case With Former Wife

LURID DIARY IS LOCKED UP

By FRED J. WALKER
International News Service Staff Correspondent
LOS ANGELES, Aug. 13.—Filmmakers and their hand-picked stars, who have been breathing a sigh of relief today with the announcement that "Finis" was being written on the Mary Astor child custody case.

Both auburn-haired Miss Astor and Dr. Franklin Thorpe, her former husband, were to go into court today for what they hoped might be the last time, to witness the presentation to the judge of their agreement and then, perhaps, hear him strike the litigation from the calendar.

Agree On Custody
All details of the agreement on custody of four-year-old Marylyn Thorpe were not revealed, but Dr. Thorpe, the father, is to have the child during school vacations and week ends with the film actress in possession of the younger the balance of the time, it was reported.

This joint custody agreement was approved reluctantly by Dr. Thorpe, it was revealed.

While the plan must be approved by Superior Judge Goodwin J. Knight, who heard the spectacular case, his consent is expected to be a formality.

Judge Knight has been a strong factor in bringing attorneys for the hostile parents together, announcing in open court his earnest desire the case be settled out of court if possible so the child might not be embarrassed when she is old enough to understand what happened.

With all the caution of antagonists who have been using the strongest weapons in their arsenals, attorneys Joseph Anderson for Dr. Thorpe and Roland Rich Woolley, representing Miss Astor, issued the following statement today:

Basic Understanding
"As a result of conferences it would appear that a basic understanding on all matters has been arrived at. Details concerning the same were discussed and the entire matter will be submitted to Judge Knight this morning for his consideration and approval."

The litigation, which consists of Miss Astor's fight for custody of Marylyn, for an annulment of her already voided marriage to Dr. Thorpe and for revocation of the community property settlement made when he divorced her last year, will be terminated when Judge Knight signs his name to the necessary papers.

And the lurid diary itself, in which the beautiful film star told of her love for George S. Kaufman, the playwright, while married to Dr. Thorpe and of affairs with other famous men, is to be impounded, sealed and placed under lock and key in the county clerk's office.

The point to this proposed procedure is to keep new litigation from developing since the diary, like Banquo's ghost, then might rise from its resting place. A large courtroom crowd, that overflowed into the hall along a corridor and down the staircase of the city hall, heard what apparently were the closing phases of the case yesterday.

Crowd In Court
They were there long before 10 a. m. when the court session was to open, but all they saw was the principals, attorneys and several film actresses. The spicy testimony

today. From now on there will be a stir of activities the like of which The Castleton has seldom seen.

Prominent folks have often stopped here but never has a presidential aspirant been a week-end guest.

To Manager Thomas M. Boyle, whose privilege it will be to act as Landon's week-end host, the approaching event means considerable. He expressed it this way:

"We are expanding our activities in every department for Governor Landon's visit. This means The Castleton will be the hub of all the week-end activity."

Take Over Hotel
Already it is known that the Republican state committee has taken over the entire hotel for August 22 and August 23.

Landon's own suite had been reserved today by M. Harvey Taylor, chairman of the Republican state committee. Republican leaders from all parts of the state and nation will occupy the other rooms.

Downstairs, in a room formerly occupied by a ladies' store, Manager Boyle will have installed auxiliary counters for serving guests. The main dining room, the grill and the ball room will be taxed to capacity and the extra room is expected to be filled.

Newspapermen from all parts of the country, particularly Pittsburgh, Philadelphia and New York, have made their reservations for the busy week end. Many have sent representatives here to make advance contact so that their accommodations would be assured.

The kitchen of the hotel will find the heaviest demand in years, but preparations to meet those demands are progressing.

Manager Boyle has been compelled to turn down many outside reservations for the Landon week-end visit, but in many cases he has sought to obtain for the inquirers accommodations in private homes.

All in all, The Castleton is a busy place now, preparing for the much busier time a little over a week away.

the portion of the street to be widened for future conduit purposes.

The reason why a conduit should be put in now, it has been explained, is that the center of the street in the future must be torn up for new sewers.

Round pointed out that 19 additional lights can be placed in North street between East and Jefferson streets. He said the company can give the city and residents any type of lighting required, and either at 600 or 1,000 candlepower.

He said that the cost of 46 additional lights at 1,000 candlepower, which he recommended for East Jefferson street, and North Jefferson street, would cost not much more than the nineteen 600 lights for North street.

Round promised to put into writing his proposal for lighting North street and also for providing more lights for the other streets, which, he said, are not adequately illuminated in relation to the traffic the lanes carry.

FOREIGN LEGION AND MOORS NEAR CITY OF MADRID

(Continued From Page One)
curfew laws have been tightened so that not a flicker of light can be seen in the capital after 10 p. m.

Loyalists said the powerful Rebel offensive to win San Sebastian and thus eliminate the danger of an attack on the rear of General Emilio Mola's forces had been checked.

Loyalists fighting with Rebels in mountain passes before San Sebastian, however, were suffering from growing hunger and thirst.

Paris, Aug. 13.—President Manuel Azana of Spain and seven cabinet ministers, fearing capture of Madrid by the Rebels, have fled to Valencia, Le Jour reported today from Bayonne.

Lisbon, Aug. 13.—Dropping a hundred 66-pound bombs, four Rebel Spanish airplanes today attacked Loyalist militia entrenchments in the Badajoz sector.

Bayonne, France, Aug. 13.—Inflicting numerous casualties on the civil population, a Rebel Spanish plane today bombed Pasajes and Errendo, a few miles from San Sebastian.

Two government planes from La-sarte chased the insurgent machine toward French territory before the latter finally escaped to the south-east.

Hendaye, France, Aug. 13.—Attempting to outflank Spanish government troops on the San Sebastian front, a detachment of insurgents was virtually wiped out today by a terrific barrage of artillery and rifle fire and aerial bombardment.

According to reports here, only a few Rebels escaped.

Gibraltar, Aug. 13.—Reinforced by fierce Rifian tribesmen, the vanguard of Commander Francisco Franco's Rebel army launched its offensive upon Malaga today.

Separate columns of insurgent troops, composed of regular soldiers, Fascist sympathizers pressed into service and ruffian tribesmen left La Linea and San Roque by different routes.

Head For Estepona

The columns headed for the seaport town of Estepona, 50 miles southwest of Malaga, where they are expected to clash with loyal contingents. Severe hand to hand fighting is anticipated.

Several truckloads of ammunition, field guns and ambulances left Algeciras simultaneously with the Rebel troops. These were dispatched also to Estepona.

Observers here interpreted the troop movement as the initial onslaught in what is expected to be a decisive drive from the south. Other Rebel contingents in the north will continue their efforts to take Madrid.

Vienna, Aug. 13.—With pleas that former King Alfonso return to Spain and lead the Rebels, 16 Spanish noblemen arrived here today. They intend to see Alfonso at Lake Woerther, where he was following a conference with his sons, Don Juan and Don Jaime.

The king also conferred yesterday with several Austrian monarchists, most of them Hapsburg archdukes, at Semmering.

Informed circles here, however, do not believe that King Alfonso will risk going to Spain, especially since, when Don Juan turned up on the northern Rebel front, he was dismissed with the information that the revolution was "not of a monarchistic nature."

NEW DEFICIENCY MAY REACH HALF BILLION

(Continued From Page One)
providing work are carrying on, on balances from the \$4,880,000,000 1935 appropriation.

Governmental figures show that there has been a decline of only 2,119,324 in the number of persons dependent upon governmental aid either federal, state, or local, since the peak load of March, 1935.

At that time, 20,578,056 persons were on direct relief.

Now the federal government is providing, for work relief for the care of 13,458,000 persons, while state and local governments are providing for more than 5,000,000 unemployed, and others on relief who are unable to obtain employment.

WPA had made subsistence grants—money to provide food for human subsistence, to 316,618 families. WPA said every work relief job is estimated to provide for an average of 3.7 persons, as the jobs are given to heads of families.

Heavy Loans

In addition to the 316,618 families provided with sustenance, at an average cost of \$20 per month per family, by the resettlement administration, that organization has made loans to 316,944 other families for other necessities than for food.

The RA was allotted \$83,000,000 from the \$1,425,000,000 fund.

This leaves \$1,342,000,000 for WPA, which is spending at a rate of \$142,380,480 a month—a rate that will deplete the fund by the middle of April, even if no further drought costs are added.

CCC gave employment to 403,740 persons last month with its fund; PWA, 171,259, and the resettlement administration, 63,523.

Other agencies provided 406,379 relief jobs, as follows: Department of agriculture, 285,590; interior, 53,488; war, 42,859; commerce, 5,520; navy, 9,979; treasury, 6,459; labor, 786; veterans' administration, 972; rural electrification administration, 504; library of congress, 212, and the District of Columbia alley dwelling authority 15.

SPECIAL TRAINS BEING PREPARED FOR LONDON DAY

(Continued From Page One)
The Castleton has been reserved by the state committee for the August 22 week-end and the dinner, in all probability, will be the highlight function of the week-end program.

ATTENDING ROUNDUP
Elmer R. Patterson, district supervisor of education and recreation, District 14, Mrs. Valleria James, assistant education project head, and Arthur Alexander, recreation project head, are attending the recreational roundup of district at Slippery Rock park today.

The Woman's Christian Temperance Union of Japan was founded 40 years ago.

Preparations for a gala banquet in New Castle the evening of August 22 following Landon's appearance near the site of his birth and being handled by Lawrence county Republican leaders, Green said. That phase of the program, he explained, was in local hands entirely.

One train will carry a delegation of Dauphin county Republicans and other GOP leaders and workers from this sector. Others will converge on the western Pennsylvania village from the four corners of the state.

NATIONAL LEADERS WILL BE HONORED FOLLOWING DINNER
(Continued From Page One)
mined today, Mr. Bickett said. He stated that the plans will be announced more in detail soon.

Secretary G. Edward Green of the Pennsylvania Republican committee has asked Mr. Bickett and the local leaders to draw up the necessary arrangements and the local committee has gladly assumed that responsibility. There will be work for the county members from now until the banquet night.

Coming here for Landon's week-end visit will be men long prominent in the councils of the party.

Painful Piles

Go Quick—No Cutting—No Salves
If you think an operation is always the only way to escape the misery of torturing Piles, it's because you haven't heard of HEM-ROID, the harmless internal medicine discovered by a western physician.

After years of study Dr. J. S. Leonard was convinced that the cause of Piles was internal—bad circulation of blood in the lower bowel—the hemorrhoidal veins filled with stagnant blood and that the right and safe way to get freedom from Pile agony was to remove the cause with an internal medicine. Immediately the doctor set to work to find the remedy. He succeeded and called his prescription HEM-ROID.

Pile sufferers everywhere are benefiting by Dr. Leonard's discovery, so why doubt or delay longer when Eckerd's Cut Rate and New Castle Drug Co. and all drug stores say, "No matter what kind of Piles you have, one bottle of HEM-ROID tablets must show you the safe clean way to get rid of your pile misery or money back."

STATE COLLEGE MAN TO GIVE LECTURE

Next Monday evening, Aug. 17, in the North street school auditorium, there will be a free lecture for the general public, under auspices of the Garden Forum of the Lawrence county area. The hour is eight o'clock.

The speaker will be Fred N. Grau, State College lawn authority and member of the extension service of the college. His subject will be "Lawns", and after the talk Mr. Grau will lead a forum on lawns, which is sure to be instructive.

The local forum feels fortunate in having the State College specialist here at this time and is glad to pass on the opportunity to the general public the privilege of hearing him. Since August and April are the important months in the making of a lawn, his subject will undoubtedly attract a large and interested audience.

In connection with the evening's lecture, the second exhibit in the flower tournament will be held as usual, with Mrs. B. K. Thacker chairman of the judging committee. Members of this committee will comprise members of the Lawrence County Garden club.

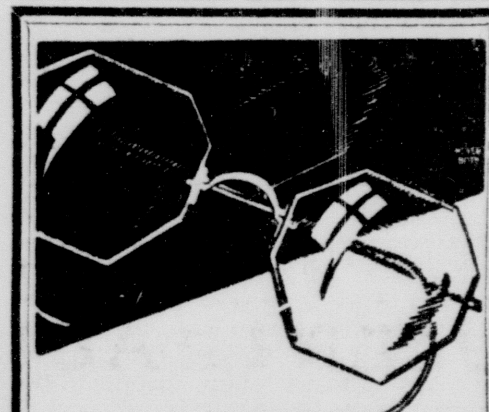

Specimens for the exhibit must be in place early, so the judging may take place promptly at 7:30. The building will be open in the afternoon as before, for entrants. At 7:45 there will be a meeting of the executive board of the forum.

MEN'S CLASS OF THIRD U. P. CHURCH FINE THOTS

With "Old Man Weather" grinning his best smile, the thirteen dinner and corn roast, outing held at Cascade Park by the Men's Bible class of the Third United Presbyterian church, proved an outstanding success. They entertained their wives and the women of the various units of the Y. L. B. class of the church, which attracted approximately 150 guests. Mrs. Earl McKnight is president of the Y. L. B. class, and M. R. Bates heads the Men's class.

The men in charge proved excellent hosts, and worked untiringly with the preparing of the delicious menu. This outfit was in charge of Frew Book who acted as chairman, and they were ably assisted by social committees of their guest group, with Mrs. Fred Sturdevant, chairman.

When the tasty menu had been devoured, a program of entertaining contests was conducted under the direction of Gilbert Colnot and M. R. Bates. Mrs. James Edmundson carried off the award of being voted the best looking woman in attendance, and for the men, the prize went to James Piffant for being the most handsome. These features caused a riot of mirth and laughter, and added much to the pleasure of the day. Bingo filled in the remaining hours, the major prize going to Mrs. John McConnell.

These groups of the Third U. P. church, each year plan one or more gatherings of this nature, and they will continue to observe this custom, due to the many enjoyable occasions held in the past. Yesterday's outing tops the list thus far, and plans are already being discussed for another outing soon.

THE COUNTY FAIRS

A FEW more weeks now and the corn, if any, will be in the shock. The preserves will be put up and the frost will be gleaming on the pumpkins. The time of celebration will be at hand, and from coast to coast that glorious institution, the county fair will blossom forth. Already there are harbingers of that happy time. Farmers searching their fields for choice products, farm women taking special precautions in the preparation of certain fair-time masterpieces of cookery, preserving, needlework and other handicraft. Fair grounds are being trimmed and put into holiday dress. Harness-race horses in remote districts are being trained for the county fair circuit. And blazing from roadside barns and telephone poles are posters advising one to be on hand for those autumn days when the farm is exalted and the county fair holds sway.

The county fair, Old World in inception, rose to heights unsurpassed in the America of the early years of this century. It came at the season of the year when harvest was over and every one had money. The most pleasant days of the year, those golden September days when the sun glowed and the leaves fell and the fields were yet warm with summer heat, found full expressions at the fair grounds.

Crowds gathered to see the finest hogs and dairy cattle and horseflesh.

The sporting element found games to occupy their time. And, of course, the choicest sport of all was the harness racing, with those trotting and pacing favorites of the countryside pitted against the stables that made the annual tour of the larger fair grounds.

So if one feels the pressure of this "dreadful machine age" as something too strong for everyday life, there is relief ahead. When the magic time of fairs comes around, one need only follow the signs or even the parade of fair-goers. And at the fair grounds he will find there the biggest pumpkin, the finest corn, the best heads of wheat and oats and barley, the biggest hog, the fastest-growing shoat, the most tasty strawberry preserves, the cleverest bedspread design, even the finest specimen of fifth-grade writing. For there handicraft has its inning and its rewards. Sleek, clean-limbed horses hold their own against the most gleaming, efficient tractor in the world. Handmade hooked rugs crowd out the finest product of mechanical looms. The man and not the machine is glorified at county fairs.

\$5,000 POETS

The newly formed Academy of American Poets, which proposes to bestow fellowships on poets of outstanding achievement, has made it exceptionally easy for candidates to prove their eligibility. Besides being Americans and good poets, they need only "not be possessed of a regular income in excess of \$5,000 a year."

About 99 poets out of 100 can claim that qualification with all honesty and sincerity. Poets with regular incomes in excess of \$5,000 are so scarce you can almost count them on the fingers of one hand. And if the Academy wishes to verify their testimony, it can ask their creditors.

Nor is opportunity entirely and permanently closed to those whose incomes do run above the \$5,000 mark. Most of them can quickly remedy the situation, and reduce their earnings to one or two figures, merely by writing more poetry and doing less teaching, lecturing, farming or brush selling.

WHISKERS IN RUSSIA

Roughly estimated there are more than 40,000,000 males in Russia capable of sprouting whiskers and cultivating them with various degrees of care. There is afoot a movement to bring to Muscovy whisker consciousness in order that smooth countenances may predominate in land heretofore devoted to facial forestry. Official figures given out by the Council of People's Commissars indicate that by next year 10,750 brand-new barbers will have been added to the existing supply.

It is a comparatively simple problem in arithmetic to deduce from this base that even twice the 10,750 new barbers added to the unknown quantity of existent tonsorialists are going to have their hands and shop floors full of whiskers before they get well started. Imagination totters before the thought of a be-whiskered Ivan transformed into a smooth-faced Ivan. Soviet-land has here its tackled, and thrown, vast problems, so it is not safe to predict defeat in the present one. The legion of barbers, neophytes and veterans, has a real job in prospect. Possibly an administrative liaison with the federated sofa pillow creators can be arranged. It is a cheerful thought, however, that the Soviet ladies have gone in rather tumultuously for cosmetics and toilet soaps, so a sex rivalry can be set up for which the most flattering success may be predicted.

Lacking authoritative statistics on the ground coverage and luxuriance of the Russian male whisker, the fact remains there will be something doing in the land when the scissors and razors begin to function. What hitherto vague secrets of physiognomy may be discovered, what flora and fauna treated to their first sunlight!

The inventor who says that a fast auto ride will age whisky means, of course, the container of the whisky must be a jug.

Meet Dolores Ibaruri.
Have We Such Carmens?
One Dream Fades?
Cats, Dogs And Men.

EXCITING situations always produce some lady, who adds the finishing touch—like the lady with a red parasol at a Democratic convention, and the innumerable small-fry Jeanne D'Arcs that "make the front page" in big strikes.

The Spanish rebellion has developed, on the side of the radical government, a lady-captain worthwhile. Her real name, Dolores Ibaruri, would satisfy Hollywood, for a heroine-name, but it is not romantic enough for Spain; she is called La Passionaria by Spaniards that follow and obey her.

LET THE Paris Soir "special envoy," Monsieur J. G. Fleury, describe her—no non-Latin could do her justice.

THE WOMAN KNEW BEST

I KNOW a man who didn't follow his wife's hunch and it cost him quite a bit of money.

This is how it happened: Last year there was a lot of talk about Holland or Belgium or Switzerland going off the gold standard. The wise gentlemen said France would probably stay put but either Holland or Belgium were likely to fall off ANY MINUTE.

And if you bought an option on a gold bar, for 90 days, and Holland or Belgium went off in that time and stabilized at 60 cents on the dollar, you'd clean up. All you had to do was smart (not lucky) and bet (I mean "invest") in the right country's money.

Should it be Holland or Belgium? Well, France probably would not let Belgium go off the gold standard, but Holland's foreign trade was certainly in a bad state. So Holland was the best bet. All right, they'd buy Dutch guilders—this smart fellow and a friend would, and then sit back and wait for the break.

But at this point a wife said a few words. She'd just read an article by a woman who said the Dutch were a VERY stubborn people who would not go off the gold standard and she thought as long as those two men intended to GAMBLE (that was the word SHE used) they ought to bet on Belgium, not Holland.

But they threw statistics at her and wore her down. . . and bought their option on Holland.

BUT—they didn't get any easy profits. . . . Because just two weeks later, it was Belgium, not Holland, that went off the gold standard and they lost their bet.

And I understand that that wife, being a woman of extraordinary and blessed restraint, hasn't once, so far, said: "I told you so!"

PRECEDENCE

A young man was escorting his latest young lady out of the theatre. Anxious to make a good impression on her, he held his hat in his hand, carrying it carefully upright to keep it from being crushed.

One of the corner wags, who was watching the outflow, spotted the hat and seized on the chance to be wagish. "Hey," he shouted, "are you going to take up a collection?"

The young man looked around a second before he realized that he was the one addressed. "Why, no," he answered softly, "not if you and your organ grinder were here first."

WHAT JITTERS WILL DO
Brice Kenhan, of Bluffton, O., calls this contribution of his an extravaganzas. And perhaps it is. At any rate he says it was related to him by a "resourceful relative" and that may account for some of it.

Will Wilker subject to perverse moods of misanthropy, languished in an humble abode, where according to vigilant neighbors, he created mystic wines and liquors from a formula cherished with hereditary inveteracy for the express pleasure of his own eccentric personage.

Wilker expired naturally without divulging his secret and leaving only one vessel of liquor to profess his occult incantations.

One relative, Amos Whitlock, by name, acquired the celebrated flask and with his friends perused and commented upon its affluent charms. It was a vessel of ruddy tint, embellished with flamboyant designs and cryptic figures none of which the erudite gathering could decipher. The rich concoction effervesced and radiated a glowing influence of occult derivation. As a thirsting host with a flair for originality, Whitlock produced a pistol, waved his friends aside, and aimed for the neck of the flask. With the decapitation of the flask came a low, hissing sound. A

moment later the contents exploded with a most singular dynamic impetus.

When the shocked party recovered from their astonishment they regarded with significance the absence of the flask and the foam spattered walls with awe and perplexity. The bottle stopper was found, however, to be gratingly thither and yon, describing a series of interesting circles in the shape of copper pellet. The annealed glass from the bottle had been projected to the stratosphere by the velocity of the blast condensed therein, and returned earthward in the form of such novel precipitate as glass beads.

The liquor itself was never found—perhaps it was an illusion.

Fascists Propaganda Spreads
Directed Toward United States
French in Delicate Spot

By LESLIE EICHEL

Central Press Staff Writer

A TREMENDOUS wave of propaganda is coming from Europe again. This time it is from the Fascist countries. It is designed to cause the United States to take sides—against Great Britain and France.

Such is the view expressed with deep concern in informed quarters. Spain is the basis of this appeal.

Spain is pictured in the throes of communism—a danger to the world. Therefore, Italy, Germany and others, in order to "protect" the world against its "communism" would take over certain of Spain's possessions. An Italy would recognize the Fascist militarists as the true rulers of Spain.

Now, because Great Britain looks in horror upon this, the British are accused of upholding communism for their own interests.

That happens to be wide of the mark. Britain has a Tory government. Britain is startled by this attempt at "highway robbery" of strategic spots on its highway to Egypt, India and Australia. Furthermore, Britain fears that a replacement by force of the duly constituted democratic government of Spain with a Fascist military dictatorship might mean the spread of Fascist terror to the doors of England itself.

And the fear of France is many times greater than that of England. France would be encircled by a Fascist military dictatorship.

The democratic nations of Europe are fighting for their lives. Acceptance by Germany of France's non-intervention plea to all nations relieves the situation momentarily.

U. S. MENACED?
Is the United States, itself, involved?

Yes, the United States would be involved if forces within the United States would send aid to rebels in Spain, under the guise of fighting communism.

That is the fear of veterans observers of the international situation. It was just such an emotional appeal—against the "spread of German Kultur" and "frightfulness" that finally landed the United States in the World War.

It is not enough for the government of a nation itself to be neutral. Its people must be acquainted with the truth of propaganda directed at them.

There are powerful forces within the United States, sincere in their belief, who think there should be severe moral pressure used against "communist" countries.

They may be emotionally affected by propaganda and in turn inflame other people. It is natural, it is human nature. But such zealous emotion is the tinder for war.

Now, will the United States stop its ears against their propaganda, or will it be dragged into another European imbroglio?

That is a question pondered in the highest circles.

Today's Yesterdays—Aug. 13, 1469—First appearance in historical records of Will Caxton, who produced the earliest books and publications printed with type in English. But his first book in English wasn't published in England, because authorities wouldn't permit it to be. His first book in English—a translation of a French history of Troy—wasn't understandable today, for it is in archaic vernacular which only scholars can comprehend.

Aug. 13, 1587—Mantoe of the Croatan tribe was baptized and received into the Church of England at Roanoke Island (North Carolina), and became the first native Christian in the 13 colonies. Some historians relate to him erroneously as the first convert in America; but there were earlier conversions in the Spanish colonies.

August 13, 1814—Congress refused to enact a draft law! The secretary of war, James Monroe, appealed for adoption of a conscription act to provide urgently needed men for the second war with Britain, but the war was so unpopular in most states, enough congressmen were opposed to defeat it.

August 13, 1818—Lucy Stone was born at Brookfield, Mass., a future occupant of America's Hall of Fame. Her father sent his sons to school, opposed her higher education. She earned her way through Oberlin, then the only college admitting women, by doing housework, and was so brilliant a scholar she was chosen to compose the valedictory essay. She refused, because a man would deliver it. Authorities regarded it as contrary to Scripture for a woman to speak upon a religious subject in public!

Aug. 13 Among State Histories—1814, Battle of Lake Erie began. 1898, Manila was captured by the American expeditionary force, which didn't know that between Americans and Spaniards. 1935, the bill restoring Spanish-American war pensions to 50,000 became a law.

NEW YORK, Aug. 13.—Interview
With a Typical New Yorker:

Q. Where were you born, sir?
A. In Seattle, Washington.
Q. Where do you live in New York?

A. In the East Fifties.
Q. Are you married?

A. Yes.
Q. Children?

A. Can't afford any.
Q. What do you pay rent?

A. Eighty dollars a month.
Q. What—of course this interview is anonymous—do you earn?

A. Two hundred and forty dollars a month.
Q. Isn't eighty dollars a thumping proportion of your salary to pay out in rent?

A. Of course it is. But then, it costs money to be a typical New Yorker.
Q. Why do you consider yourself a typical New Yorker?

A. Because there are so few of us here and we are all exactly alike.
Q. Did you become typical through your own efforts, or did you have the status thrust upon you?

A. Oh, I worked at it in my spare time. I took it up when I sold my stamp album.
Q. Who are your favorite actresses?

A. Ann Corcoran, the burlesque queen, and Shirley Temple.
Q. Do you go to the theater?

A. Only to first nights.
Q. But aren't first nights expensive as a steady habit?

A. Of course. But as a typical New Yorker could I be seen at the second or third night of a play? I know two press agents and I'd rather go to one bad first night than half a dozen first rate plays on the later nights. Every typical New Yorker feels that.
Q. What publications do you buy?

A. Fortune, The New Masses, The Magazine of Wall Street, Transition, The Atlantic Monthly and Story Magazine.
Q. What magazines do you read?

A. True Confessions and Film Fun.
Q. Why did you come to New York?

A. To get away from small-town gossip.
Q. Where is your wife now?

A. Across the street discussing with Mrs. Zilch the terrible thing Josephine Donkey is rumored to have done last night. I must tell you about it.
Q. What is your greatest ambition?

A. To live in an apartment with a kitchenette large enough so that if a tray of ice cubes slips you aren't in danger of falling backwards out of the window.
Q. Do you play bridge?

A. We did until the unfortunate incident of the eight-trick set when my wife mixed her hearts and diamonds.
Q. Didn't the larger rewards of the great city tempt you into moving here?

A. Oh, sure. Sometimes I wonder I ever stood it out in the suburb of Seattle.
Q. And you intend to stay?

A. Absolutely—until I can save up enough money to buy two tickets to Seattle. I never intend to go back to the suburbs again.

her back she carries a mauser rifle; against my stomach she presses a pistol as long as that of a Fenimore Cooper hero. Hastily I show my passport. "It is perfect, Monsieur the Frenchman, you may circulate."

"I try to enter into conversation; I address a compliment to her but with a firm gesture, she repels this foolishness and rejoins her companions, all armed to the teeth and as grave as funeral statues."

"Try to have a romance with one of these Communist Carmens; you could not, they are too busy enjoying the whole thing, according to Monsieur Fleury."

"Amazing woman, indefatigable, she runs from the field of battle to the studio, to broadcast and sustain the government, with her bitter eloquence; then rushes to the recruiting stations, where she drags out the youths that do not want to fight, and makes them fight."

"The frail hands of Carmen skin themselves on the rough iron of her rifle. She and other young women shoot at the young insurgent soldiers that only yesterday they caused to blush, under the audacious glances of their jet black eyes."

PRETTY GOOD CARMENS, you will admit, that could make young Spanish soldiers blush, with a glance; and you agree with Monsieur Fleury's thoughtful observation:

"Not the least tragic side of this Spanish drama, is the gruesome haste with which female hearts, only yesterday voluptuous, hastened to wound and inflame death."

HAVE WE, among our beautiful young home-made American Carmens, any that might chance their "catch-heart" permanent waves, for rough muskets, their little silk shirt-waists for rough men's shirts and red cravats, and proceed to shoot the life out of young American men that recently blushed under their fascinating glances?

You hope not, and so do we; but who can tell? Long ago the French king wrote the truth, on his lady's window, Souvent femme varie, "Often woman changes."

FOR A man outside of the job everything seems easy. They become less easy when the outsider becomes the insider and carries the loan.

Monsieur Blum, new French prime minister, first Jewish statesman to

hold that position, a highly educated earnest man, has changes some views and abandoned hopes now that he directs the government, instead of fighting it from the outside.

He has admitted in the Chamber of Deputies that his "dream of disarmament as the basis of security and peace for all nations" is no longer a possibility in view of the present European situation.

Every invention seems a perfect success, until you make a full size working model.

The main danger at the moment to peace is Spain's civil war; not that Spain would or could threaten any other nation; she needs all her energy for home consumption. But interference with the Spanish situation by an outside nation might precipitate the big fight.

France and Russia sympathize with the radical, not to say Communist, Madrid government. Mussolini and Hitler, hating Communism, must sympathize with Spain's insurgents.

All the nations have declared their intention to keep out of the Spanish quarrel, but Italian airplanes carrying cargoes of machine guns and bombing-gear to Spanish Morocco, headquarters of the Spanish insurgents, have crashed on French colonial territory. Italy denies any responsibility for those planes and France accepts the statements, but the solemn London Times says:

"If under the discipline of Signor Mussolini such things can happen, a government with limited powers can hardly hope to prevent similar, if not even more significant exploits."

LLOYD GEORGE, with the optimism of intellectual youth, spoke almost hopefully of the British government's proposed "real effort to end the bloody and secular quarrel between Teuton and Gaul," meaning between Germans and Frenchmen.

As well talk of ending the old quarrel between cat and dog. French and German quarreling is a continuation of the old Germanic-Latin quarrel in which the German Arminius caused the Roman emperor to mourn the loss of his legions.

Racial hatreds and bloody wars will not be ended by diplomatic treaties or pious wishes. The nature of cats and dogs and of different human nationalities must change to end their hatreds.

INTERMARRIAGE in the long run may wipe out race hatred, as it has done to some extent already in America, but you realize that, that is a long way off when you consider the populations of Europe, Asia and Africa.

Men will try, for a long time in the future, as they have done thru all past ages, to solve the race-hatred problem by exterminating the hated races.

MISSIONARY SOCIETY AT TRENT RESIDENCE

Members of the Catherine Von Bora Missionary society of St. John's Lutheran church gathered Tuesday evening in the home of Miss Esther Trent on East Washington street for their regular business and social meeting.

Devotionals were led by Mrs. Ruben Johnson, and she also led the discussion which bore the title "Out of the Mail Bag." Following this a short business session under the leadership of the president, Mrs. Milo Steele, was conducted and business of importance transacted.

Plans were made for a corn roast to be held at the home of Clara Alborn at East Brook on Wednesday evening, August 26. The committee appointed consisted of Mary Elizabeth Gibson, Clara Alborn, Jennie Johnson and Lottie Dyson.

Two new members, Mrs. Raymond Gilbert and Mrs. George Alborn were admitted to the club at the meeting, and one visitor, Mrs. Elizabeth Vago, was welcomed. Mrs. Margaret White served most efficiently as assistant hostess to the group.

The next regular meeting will be held in the home of Mrs. Clara Gray on Adams street Tuesday, September 8. Mrs. Ruben Johnson will serve as co-hostess and Anna Allshouse will take the position of leader and discuss the topic for the evening.

Cards were in play during the early period, with the pretty favors falling to Elizabeth Morrow and Mrs. S. G. Brown. Miss Janet Brown received the galleon award. Afterwards, the group filed into the dining room where they were seated about the long table, centered with a cluster of the season's flowers featuring an array of pastel hues in the appointments. In serving lunch the hostess was aided by her sister, Louise Mitchell.

The next gathering will be with Mrs. Charles Ussellon, Laurel boulevard, the date to be announced.

LAWN DINNER PARTY AT L. E. PYLE HOME

Among the festivities Wednesday, one that proved most delightful was the picnic dinner served on the lawn at the home of Mr. and Mrs. L. E. Pyle, Neshannock avenue, for members of their family, honoring Mr. and Mrs. Ralph McCreary of Perry Point, Md., and Miss Martha Whiting of Pasadena, Calif., who are guests in this vicinity.

The occasion was held for relatives of the out-of-town guests. Long tables were nicely appointed in the season's motif, where a delectable full course dinner was served, and the time that ensued was spent in reminiscing.

Mr. and Mrs. McCreary left this morning for their home in Maryland, accompanied by Miss Whiting, who will visit there for a few days and also in Washington, D. C., before returning to New Castle. She will be here for a period of a month.

NEW IDEA CLUB PLANS PARTY FOR SEPTEMBER

Plans were completed for a dinner and theatre party, to be held September 8 by members of the New Idea Club, which will launch their fall program. The details were rounded out at the breakfast gathering Tuesday morning, in the grove of Cascade Park, where they enjoyed a most appetizing menu.

Reservations for this occasion, will be in charge of Mrs. Oscar Leonhardt, Rose avenue.

Special guests at their outing, included Mrs. Margaret Livesay and Mrs. Nathan Routman.

An informal period, including a stroll about the park grounds, occupied the hours that followed.

Announcement is made of the marriage of Miss Rosella Belle Nathan, daughter of Mr. and Mrs. Myer Nathan, 623 Wallis avenue, Farrell, to Herschel Routman, son of Mr. and Mrs. Alex Routman of New Castle, which took place 5 p. m. in the bride's home August 9.

The ceremony was performed by Rabbi S. Chiel of the B'Nai Zion synagogue. The bride was attired in traditional white satin, princess style, long lace veil and white accessories. She carried a bridal bouquet of roses.

Dinner was served to 25 guests at the conclusion of the ceremony after which the newlyweds left on a wedding trip to Cleveland and other points of interest. On their return they will reside at 220 Trout street, Sharon.

Mrs. Routman is a graduate of the Farrell high school, class of 1936. Mr. Routman is associated with the Cross Distributing company.

Shirley Wigley Honored.

Little Shirley Ann Wigley was honored Wednesday at a party given by her parents, Mr. and Mrs. Carl Wigley at Moravia in celebration of her third birthday anniversary.

Twenty-five little tots were in attendance and enjoyed the program of kiddies games planned for their pleasure. At a suitable hour, Mrs. Wigley served a dainty lunch at a table appointed in tones of pink and white. A large birthday cake formed the centerpiece. Assistants were Mrs. Eugene Cunningham and Mrs. Richard Morgan.

Mrs. Ann Lapin of Painesville, O., was an out of town guest.

Little Shirley Ann was delighted with a collection of pretty gifts, given her in remembrance of the happy occasion.

Enroute they visited a sister, Miss Hannah Ellison, a former resident of this city, now located at Lititz, Pa. They also spent a few days with another sister, Mrs. William Hanna of Middle Haddam, Conn., and family.

They visited the historic battlefields at Gettysburg and spent a day sightseeing in Niagara Falls and Canada. They reported having had a splendid trip and fine weather.

Local Citizens Hoodwinked By Quack Medicos

Federal Authorities Notified By New Castle People Of Scheme

(International News Service)

PITTSBURGH, Aug. 13.—Since the arrest here last week of two alleged swindlers said by authorities to be members of a ring of "quack" medicos which operated from coast to coast, postal authorities today revealed they had received many letters from persons claiming to have been cheated by the gang.

Pictures of the two men, H. N. Baxley, 33, and Curtiss J. Yeager, 30, both of Texas, who are in jail in default of \$5,000 bond each, have been sent to the "victims," postal inspector said.

Most of the letter-writers, it was stated, were elderly people living in rural districts. Some of the letters received, postal inspector D. H. Stephens said, were from persons living in New Castle, Pa., and Erie, Pa., and in Pennsylvania towns east of Altoona.

Arrest of Baxley and Yeager Friday at the American Legion state convention, the American Legion Junior band of this city will vie in the state competition.

The American Legion band has been designated by the state department of the American Legion to give a concert at the stadium on the evening of August 21 in the presence of about 25,000 legionnaires. The local band has been drilling and rehearsing for the past two months and feels confident of winning the state title. Professor Joe Replogle of New Castle high is the director.

WASHINGTON AT A GLANCE

Laud Dissenters As Strategists

Democrats Are Opposing Roosevelt But Not Endorsing Landon For President

REPUBLICANS MAY GET THESE VOTES

Central Press Washington Bureau 602 Times-Herald Bldg. By CHARLES P. STEWART Central Press Staff Writer.

WASHINGTON, Aug. 13.—Disgruntled Democrats did, at their recent Detroit conference, exactly what long-headed Republicans wanted them to do, in declaring their opposition to President Roosevelt but refraining from an endorsement of Governor Landon.

It also was clever strategy on the disgruntled Democrats' part, from their own standpoint. After all, they are experienced politicians.

For one thing, the disgruntled folk would have split their own ranks if they had endorsed the Kansan. Southern anti-New Dealers, in particular, objected (and they said so in Detroit) to proclaim themselves Republicans, even temporarily. It may be a mere fetish but they respect it. However, uncommitted by any formal resolution, one way or the other, they are at liberty to slide, individually, into a polling booth on Nov. 3 and cast a secret ballot apiece in accordance with their respective convictions.

Another thing, the disgruntled ones propose, as they explained at

LOSE FAT THE EASY WAY

Without Starvation Diets, or Back-Breaking, Bending and Rolling Exercises.

Here's a way to get rid of ugly fat that works hand in hand with Nature. Millions of people are losing millions of pounds of flabby flesh and getting back slender figures, without the need of starvation diets or back-breaking exercises.

Medical science has discovered that one of the causes of too much fat lies in a little gland. It is the duty of this tiny gland to make about one drop and a half every day of a vital fluid. This helps the body "burn" up food and excess fatty tissues just as a good draft of air helps the furnace to burn up coal without forming "clinkers." If this little gland doesn't make this drop and a half of fluid every 24 hours, many people take on ugly fat.

Doctors correct this condition by feeding this little gland the substance it lacks—and Marmola Prescription Tablets are based on this same method. Millions are using them with success. They are prepared by a world-famous medical laboratory. Their formula is published in every package so you know what you are taking.

So don't waste time and money with starvation diets or back-breaking exercises. Go to your druggist today and get a box of Marmola. Try this simple, easy way to get rid of excess fat.

their gathering in the Michigan metropolis, to work for recovery of the control of the Democratic party. They could not very well do this if already divorced from it by affiliation with the Republicans; they simply would be G. O. P. juniors—no longer Democrats and still not entitled to ask for much from Republicanism.

G. O. P. GETS THE VOTES

Republicans look at the situation thus, too.

They think they will get more disgruntled Democratic votes on an individual basis than they could hope to get as a mass proposition.

As for the future!—the disgruntled crowd's chances of regaining Democratic control later? That is a hazard that doesn't worry Republicanism now. Its concern is with next November.

WAR?

"Heaven help the presidential candidate who is elected or re-elected three months hence!" many students of international affairs are saying.

The conviction is growing in Washington that another world war, growing out of Spain's civil struggle, is inevitable. The consensus is that another four years (or, more likely, the next four weeks or months) will see the beginning of it.

How to keep out of it will be the next administration's problem.

GERALD SMITH

The Rev. Gerald L. K. Smith, Senator Huey P. Long's successor, was the National Press club's luncheon (and speaking) guest a few days ago.

The newspapermen's verdict is that the Rev. Gerald L. K. is a wonderful orator—as to his manner of delivery. He has a marvelous capacity for "slinging words." He paints graphic pictures. He has personality and likability. He didn't "pull" a Bible on the Press club. He had too much good judgment.

The National Press-men are a hard-boiled bunch.

Their verdict is that he is a corking "rabble-rouser."

Some critics I've heard say he is as good as Huey Long. They predict that he will prove to be foremost among the political outlaws—the Townsends, the Lemke-ites, the Coughlinites and others.

Personally I wouldn't suppose so. I think they are too jealous of him. Nevertheless he's a formidable character.

ZIONCHECK MOURNED

Representative Marion A. Zioncheck of Washington, who went crazy in the capital and wound up by committing suicide, jumping from a fifth-story window in Seattle, is very sincerely mourned in Washington, D. C.

He was "queer" during his last days here, but, previously, he had proved himself, to Speaker Byrnes, to Democratic Floor Leader Bankhead and to the entire administration organization a capable "radical," as he described himself.

He was a very lovable personality, and "radical" as he said he was, conservative congressmen liked him.

According to a pamphlet issued by the Department of Internal Affairs, in which the names of all county commissioners in the state are listed, there are eight classes of counties in the state, ranging from one to eight. Lawrence is a sixth class county. Philadelphia is the only first-class county, with Allegheny, a second-class county, the next largest. Of the surrounding counties, Beaver and Butler are in the sixth class the same as Lawrence, but Beaver is a fifth class county.

It may interest you to know that 100 years ago toll roads in Pennsylvania covered something like 2,500 miles. Today there are no toll roads in the state. The last privately owned road was eliminated six years ago. Every citizen now travels over roads far superior to the toll roads for nothing.

County Commissioners' Attorney, William McElwee, Jr., is making up another list of properties which the county owns and which will be sold to the highest bidders. These are properties, mostly lots and acreage, which the county has acquired at former tax sales. Ample opportunity has been given the former owners to redeem it, but nothing has been done. The county wants to get this property into the hands of private owners, in order that it may again be placed on the tax list. It will be sold free of all taxes, including this year. Several adjourned sales have been held on a list which was recently published, and a considerable portion of it has been sold.

PRESIDENT ROOSEVELT IN STATE TODAY

To Inspect Flood Zones In State

Will Tour Flood Areas In Hard Coal Region After Johnstown Inspection

GOES TO CLEVELAND FOR SPEECH FRIDAY

By GEORGE DURO International News Service Staff Correspondent
WASHINGTON, Aug. 13.—Shrouded in deepest mystery, President Roosevelt had arranged a White House breakfast conference this morning with Senator Pat Harrison (D) Mississippi, and Rep. Robert L. Doughton (D) North Carolina, preliminary to his departure for a sally into the politically important states of Pennsylvania, Ohio and New York.

Harrison is chairman of the senate finance committee and was summoned to Washington from Mississippi so abruptly he had to fly to make connections. Doughton is chairman of the house ways and means committee. These are the committees whose prime function is to write tax bills and provide federal revenue.

White House officials promised an important announcement before the president boarded his special train in mid-morning for Johnstown, Pa. They refused to discuss the breakfast conference in advance.

Overnight, speculation was rife in Washington on the purpose of the Harrison-Doughton conference. One guess was that Mr. Roosevelt might suggest a delay in imposing old age insurance taxes under the Social Security Act pending further study of the complexities of the problem. Another was that the president might call his senate and house committees back for a preliminary study of revenue needs in view of recent developments, both favorable and unfavorable.

Boards Special
Immediately after this session with his congressional revenue aides, President Roosevelt will board a special train for an inspection of the areas around Johnstown, Scranton and Wilkesbarre, Pa., and Binghamton, N. Y., which were inundated by the floods of last March. Flood control was announced as inspiring this phase of the trip. It was denied vigorously by White House aides that any politics was involved.

Sandwiched into the president's fast-moving schedule was a visit to Cleveland tomorrow simultaneously with the opening of the first national convention of Father Charles E. Coughlin's National Union for Social Justice—which presumably will support the Lemke-O'Brien third party ticket this fall. Mr. Roosevelt will look over the Great Lakes Exposition there and speak extemporaneously at a luncheon.

Tomorrow night, the executive will pause at Chautauqua, N. Y., and from that point deliver a "fire-side radio talk" to the nation on America's present position in the field of international politics.

Arrives Late Today
Briefly, the president's schedule calls for him to journey directly to Johnstown, Pa., arriving late this afternoon. Officials of the Army Engineer Corps, the CCC, WPA and the Soil Erosion Service will accompany him.

After an inspection of flood control efforts there, late tonight the

MANY NEVER SUSPECT CAUSE OF BACKACHES
This Old Treatment Often Brings Happy Relief Of Pain
Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are one of Nature's chief ways of taking the acids and waste out of the blood. If they don't pass 3 pints a day and so get rid of more than 3 pounds of waste matter, your 15 miles of kidney tubes may need flushing.

If you have trouble with frequent bladder passages with scanty amount which often smart and burn, the 15 miles of kidney tubes may need flushing. This danger signal may be the beginning of nagging backache, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness.

Don't wait for serious trouble. Ask your druggist for Doan's Pills—which have been used successfully for over 40 years by millions of people. They give happy relief and will help flush out the 15 miles of kidney tubes. Get Doan's Pills.

president will proceed to Cleveland, where tomorrow he will spend the morning looking over the exposition and inspecting federal projects.

The train then moves to Mayville, N. Y. A four-mile motor ride will take the president to Chautauqua, where his speech is scheduled for eight o'clock P. M.

Later tomorrow evening the presidential special will move on to Binghamton, N. Y., arriving there Saturday morning. Here there will be another tour of inspection and then the party will move on to Scranton, Pa., arriving shortly after noon. From Scranton the president will motor to Wilkesbarre.

Shortly before midnight Saturday Mr. Roosevelt will be back at his Hyde Park summer White House where he plans to spend all of next week.

Farmers Hear How To Market Spuds
Lawrence and Mercer Growers Attend Butler Meeting

BUTLER, Pa., Aug. 13.—A statewide method of marketing the Pennsylvania potato crop was presented to a large crowd of Butler county growers and representatives of Lawrence and Mercer county growers' associations in the Community building last night. The presentation was made by Walter Bishop, president, and E. B. Bower, secretary-treasurer of the State Potato Growers association.

The crop is to be graded and packed under the supervision of the county associations in 60 pound and 15 pound paper sacks in three grades, the large size with a 2 inch minimum and the medium size 1 1/2 to 2 inch and the third for off type stock.

A distinctive trade mark has been adopted to carry through to the consumer. Already 8,000 retail stores in the state have promised to bid each week for their requirements through the central office of the secretary, but the grower will be paid directly by the purchaser.

The meeting was in charge of the Butler County Potato Growers Association, and C. A. Wachsmuth, president, presided.

School Reunion At Harlansburg

Nearly Four Hundred Re- new Friendships And Discuss Old Times

With nearly four hundred present, Harlansburg school reunion Wednesday was a complete success. Those present included former teachers, pupils, their children and friends. The reunion was held at the consolidated school building where a fine dinner was served in the assembly hall.

After dinner there was a ball game for the young folks while the older ones spent the time renewing friendships. Former students and teachers were present from many surrounding towns, although the greater part of those who attended the Harlansburg school still reside in the community.

Prof Moore Present
The oldest former teacher present was Prof. I. N. Moore, of Slippery Rock. Prof. Moore taught the Harlansburg school in 1880-83. He began his teaching career in the Cooper school near Harlansburg. He was at one time identified with the New Castle schools, and for many years was a member of the faculty at Slippery Rock State normal college. He retired some years ago.

Among the other former teachers present were Mrs. Porter Thompson of Pulaski, Mrs. Frances Pringle of Franklin, J. P. Caldwell of New Castle, Amanda Sterling of Jamestown, Anna Locke and Nettie Locke of the Pittsburgh district, Miss Mae Blackwood of New Castle, Mrs. James Studebaker and Maye Book, near Harlansburg. Present teachers in attendance were Prof. John Turner, principal, Miss Helen Hutchinson, Harold Burton and Louella Moorehead.

Great changes have taken place in Scott township schools, since some of the earlier teachers were employed. The old brick school house which once served as Harlansburg's temple of learning has given way to a modern brick consolidated school building, and several of the little red school houses of the township have been closed. With the

opening of the coming term, the pupils of the McFarland school will be transferred to the Harlansburg school.

Visitors Pleased
Visitors were pleased with the complete arrangements that had been made by the various committees. Nothing had been left undone that would tend to make the occasion enjoyable.

The business meeting was brief. No speechmaking. Only the election of officers for the ensuing year. The old officers were re-elected. They are: President, James Burton; secretary, Joseph Burnside, and treasurer, John Turner. It was decided to hold the next reunion at the same place on August 28th, 1937.

Committees who served this year were: General committee, George Kneram, Joseph Burton, Robert Korian, Carl Turner, Ellis Boyd, Bud Dean, Roy Harlan, Dr. W. D. Cleland and Audley Locke.

Table committee: Mrs. Mildred Kneram, Mrs. Lawrence Fox, Mrs. Lillian Jordan, Mrs. Mildred Turner, Mrs. Dorothy Johnson, Mrs. Esther Eakin, Miss Helen Hutchinson and Miss Louella Moorehead.

Coffee committee: Mrs. Cleora Boyd, Mrs. Mae Locke and Mrs. Belle Thompson.

Organize Chapter Republican Men

Major W. Fulton Jackson Named To Head New Organization In This County

Meeting in the Castleton Hotel on Wednesday evening a group of Republican men organized the Lawrence county chapter of the Republican Men of Pennsylvania. Officers elected are Chairman, Major W. Fulton Jackson; secretary, Attorney Thomas Mansell; treasurer, Irving Grossman. A vice chairman to be selected from the Ellwood City district will be elected later.

The Republican Men of Pennsylvania was born in Philadelphia several months ago and was inspired by such outstanding Philadelphians as Franklin Spencer Edmonds, Ira

Jewell Williams, Benjamin Ludlow and others. Later it was organized in Pittsburgh and recently Col. Charles C. McGovern and Fred Obley were in New Castle in the interests of the new organization.

Not Competing
The new organization is in no wise a competitor of the regularly constituted organizations such as the county committee. Rather it is an organization designed to broaden the work of the county committee and realizing the value of such an organization the state chairman, M. Harvey Taylor endorsed the movement when he was in New Castle a week ago.

The Republican Men of Pennsylvania parallels the Republican Women of Pennsylvania and can be compared to this organization. It is for the purpose of attracting to the party banner for active support those men who while Republican have never taken an active part in the mechanics of elections.

At the meeting Wednesday night the Landon rally at West Middlesex was discussed and it was agreed that the new organization would lend every effort possible to adding to the success of the rally. Thomas Cunningham, a member, was appointed to investigate the possibil-

ities of decorating the city for the week end when Governor Alfred M. Landon will be in New Castle. The organization will lend whatever aid it can to the rally.

A further meeting will be held on Saturday night at nine o'clock in the Castleton Hotel to which new members are to be invited. Any man who is a member of the Republican party is eligible to membership in the organization and later a membership committee will, undoubtedly be appointed.

Westfield Church Sunday Services

Regular church services will be held at the Westfield church on Sunday, August 16. The pastor Rev. Edwin A. Shoemaker will preach upon the text, "Blessed are they that hunger and thirst after righteousness for they shall be filled." The time of the morning worship service is 11:30.

The Sabbath school service will be held at the usual hour 10:30. Howard Gilmore, superintendent.

Dr. John Anderson At First Baptist On Sunday Morning

Dr. John Anderson, pastor of the Lee street Baptist church, Baltimore, Md., will be the guest speaker at the First Baptist church next Sunday, August 16. His morning subject will be "The Cloudless Sky of Redemption" and in the evening his theme will be "Christian Perfection."

Dr. Anderson will also teach Men's Bible class. He was the guest minister last Sunday and many of his friends heard him. He was born and raised at East Brook, Lawrence district. His older brother, Dr. Anderson, is well known in this district. Dr. Anderson is also a Gospel minister.

Mosers Will Have Golden Wedding Day

Prof. And Mrs. J. L. Moser
Married 50 Years Ago
Saturday, Aug. 15

One of New Castle's best known couples, Prof. and Mrs. J. L. Moser, of 621 Spruce street, will observe their Golden Wedding Anniversary on Saturday of this week.

Prof. Moser, who has been a tip-staff at the court house for the past several years, for many years teacher of penmanship in the New Castle public schools. The most prominent people of New Castle today were his pupils and it is doubtful that there is a teacher in the city who is better known by young and old alike.

The Mosers were married on the 15th day of August, 1886, at Enon Valley, by Rev. Frank Peters, who was once pastor of the Croton Avenue Methodist Episcopal church. Rev. Peters now resides at Sewickley.

The couple plans no elaborate celebration. A family dinner is to be enjoyed in the evening, with possibly about twenty guests.

State Health Head Acts On Sewage

BUTLER, Pa., Aug. 13.—As a result of complaints that Connoquenessing creek is being polluted by the effluent from the Butler sewage disposal plant, a district engineer of the state department of health will be sent to Butler to inspect the plant, it was revealed today in a letter from the department to city officials.

Mrs. Edith MacBride-Dexter of Sharon, secretary of the department, informed Mayor George H. Thompson that D. S. Young would be sent here.

Board Re-Elects School Janitors

Thirty-seven janitors for the various school buildings of New Castle for the 1936-37 term were elected by the board of education at its session last night. The directors approved the list submitted by S. G. Ligo, superintendent of buildings, grounds and equipment.

One transfer will shift Frank Young, janitor at Ben Franklin school for several years, to the janitorial post at North street school and the Administration building, left vacant by the retirement this summer of Robert W. Garroway.

Dollar Day Crowd Is Reported Largest In Number Of Years Here

Opportunity, parading under the magic nom de plume "Dollar Day," didn't have to knock even once when he came to New Castle yesterday. He was met half-way by the populace and was given a rousing welcome such as he has not had in years.

Thousands of shoppers stormed the business houses. More money and goods changed hands than has on any bargain day in five years, a cursory check-up reveals.

Here is what the president of the New Castle Retail Merchants, A. L. Bantz, Jr., has to say:

"It was all very exceptional, one of the best Dollar Days we have ever had, certainly the best in a number of years. The crowd came early and prepared to buy. There were a thousand people crowding one store and this situation was true, as far as I have been able to find out, all over the city."

The merchants, by offering quality products at drastically reduced prices, have built up a fine reputation for their Dollar Day; that the consumers appreciate and take advantage of the bargains was very apparent yesterday.

THE PARENT PROBLEM

By Garry C. Myers, Ph. D.

ELDER SON ENVOIUS

"MY DEAR MR. MYERS: Having heard you speak twice in our city, I venture to present this problem to you.

"We have two boys, aged five and 18 months. Realizing the danger of jealousy, we tried hard to forestall it when the second arrived by paying much attention to the older boy. But now, so much later, the problem is here and Robert (the older) has struck the baby several times and really hurt him though never when I am around. The last time, which has just occurred, he threw a hair brush and cut him above and below his eye.

"I read in your 'Modern Family' that jealousy may come along later like this, but you do not offer any solution—perhaps you can't. At any rate, I talked seriously to Robert and so did his father. I gave him black marks on his home chart from kindergarten. After the last trouble, I put the baby out with Robert and asked him to take care of him which he did. I then thanked him and praised his watchfulness. It seemed to me there is both jealousy and a serious lack of protective instinct with a child so much younger. Can you suggest anything?

"It may interest you to hear my application of your 'dawdler' treatment. Robert postpones eating as he is so eager to recount his day, until I was continuously bringing him back to his food. Now for two days we have had peace. A reasonable time limit and a plate not too full. Anyone reminding him gets fined one cent, but if he is not all finished on time NO DESSERT. So far it is perfect."

Answer: Your giving Robert an opportunity to care for his baby

brother has merit except it might not be safe to trust the baby with him without rather careful supervision. A jealous child may do violence. Better not leave the two alone for the next several months.

Your punishment was too mild. Next time either child strikes the other with an object, apply instantly a vigorous spanking with the bare hands to offender's bare bottom. Yet even effective punishment won't remove the jealousy.

State Crops Are In Need Of Rain

Light Rains Have Failed To Help Crops Of State To Any Extent

Sweet Corn Of Good Quality Is Becoming Plentiful On Market

(International News Service) PHILADELPHIA, Aug. 13.—Crops are doing well in a number of counties, but other areas need rain. The U. S. weather bureau declared here today in its weekly review of Pennsylvania agricultural conditions for the last week.

"Good local rains occurred in some of the southwestern counties, but, for the most part the rains were very light, and seemed to be the lightest in the regions where moisture is badly needed," the report said. "In a general way the driest portions of the state are the northern tier of counties and the Delaware basin, but a few good local showers penetrated those regions last week, and afforded temporary relief."

Good Yield Of Oats
"In the moisture regions the crops are doing well except that potatoes and pastures would generally benefit by increased moisture. In those regions the corn is making a good showing. Early fields are earing nicely, while later plantings are mostly coming to tassel."

"Oats threshing is in progress

with poor to fair yields reported. Wheat threshing continues, while wheat and oats stubble is being plowed. The condition of pastures and meadows ranges all the way from very poor to good. A third, or more, of the pastured acreage is short and weedy."

Hay Crop Poor
"Hay is poor to fair, but a few correspondents report the second crop as promising better than the first. Alfalfa is generally making a better showing than timothy and clover. Late potatoes are improving in fully one-half of the state, but would generally make still better progress with increasing moisture."

"Truck crops and vegetables have improved excepting the driest regions. Tomatoes do not require as much moisture as most other truck crops, and they are generally good in both quality and yields."

"Sweet corn of good quality is becoming plentiful on the market."

Buckwheat is mostly in bloom in the western and northern counties, and promises a fair crop. Orchard fruits are generally good in quality but light in yields."

Lincoln's Kin Support Landon

(International News Service) NEW YORK, Aug. 13.—A contribution to the campaign fund for election of Governor Landon today was reported from two relatives of Abraham Lincoln.

Harold W. Mason, Republican national committeeman from Vermont, announced at Republican eastern division headquarters here that "a generous contribution" to the campaign fund had been received from Mrs. Robert Todd Lincoln, daughter-in-law of the former president, and Mrs. Charles Isham, Lincoln's granddaughter, both of Manchester, N. H.

"They are strong for Landon," said Mason.

Democratic Chest Contains \$1,200,000

(International News Service) NEW YORK, Aug. 13.—Receipts from the Jackson Day dinners last January and the recent Roosevelt rallies are expected to net \$1,200,000 for the Democratic national committee. Forbes Morgan, treasurer, announced here today.

About \$200,000 of this amount is outstanding, he said.

LEESBURG SCHOOL REUNION AUGUST 15

The annual reunion of the North and South Leesburg schools, will be held at the Leesburg Presbyterian church, Saturday, August 15. A large attendance is anticipated, with guests taking well filled baskets. The usual routine will be featured. F. H. Lusk is president.

Si Johnson In First Start For Cards Is Hit Freely But Wins 5 To 3

YANKEES WIN, INDIANS LOSE

By LAWTON CARVER

Sports Writer
NEW YORK, Aug. 13.—You were told a few days ago to keep your eye on Johnny Mize, the very large peach from Danmore, Ga., who at the time had batted the Cardinals into the National League lead with a one-man attack against the Cubs.

There must be something about the Cubs that rankles him. Or perhaps the Cards' outstanding characteristic, which is making their best battle when the going is toughest, has been instilled in him.

After that series last week between the two contenders in which he was the outstanding hero, Mize settled into comparative quiet, with the result that the cards lost the lead again, but that set the stage for him to grab off some more glory.

The Cards are back on top today by virtue of his clouting yesterday, when the Cubs were subdued by 5 to 3.

Outright 14 to 5, the Cards won the ball game by the margin of Mize's homer with two mates aboard in the sixth inning and while they still appear to lack what it will take to outlast the Cubs to the wire, they at least have a new lease on life.

Medwick also knocked off a homer and finally French retired and turned over the pitching to Bryant, while Johnson went the route for the Cards, though nicked freely all along the route.

Giants Win Again
The Giants continued in the race, 2½ games behind the Cubs, and did it the hard way, beating the Dodgers in 12 innings on a triple by Pitcher Frank Gabler. The score was 2-1.

The game was one of those old time hurling for 11 scoreless frames, with Gabler and Van Mungo giving the opposition virtually nothing.

Then in the 12th, with two on Gabler tripled the runners home, only to be blasted from the hill in the last half of the 12th, when Carl Hubbell rushed to the rescue and wild pitched the Dodgers' tally home before halting a counter-uprising.

Pirates Top Bees
The Pirates beat the Reds 6 to 1 and the Bees took a 4 to 2 decision over the Phillies.

The Yanks returned to their habitual 11½ game lead in the American League by trouncing the Senators, 11 to 7, with Bump Hadley scoring his 11th straight win for a seasonal record.

The Indians, meanwhile, were being halted by Tommy Bridges and the rest of the Tigers, 7 to 4.

Harry Kelley, the amazing 30-year-old rookie, pitched the Athletics to an even break with the Red Sox, taking the nightcap 6 to 0 with a three-hit performance, after the A's had been whipped by West Ferrell, 6 to 4, in the opener.

The White Sox beat the Browns, 8 to 3.

GERSONS TO PLAY CROTON
First Of Five Game Series Scheduled For Elder's Field

Teddy Yarosz knocked out Young Terry of Trenton, N. J., in the tenth round last night at Idora Park, Youngstown, before 1,500 fans. It was expected that the two middleweights would attract a much larger crowd. Many of the fans were from New Castle. Terry did not have a chance with the fabled footed, quick punching Monaco boy who kept a left to the face, left hook to the stomach and a straight right playing constantly on the New Jersey fighter. Terry tried to work in close to Yarosz but the ex-middleweight champion either held him off with a straight left or tied Terry up when he did get close. Terry delivered one good hard sock to Teddy's chin in the middle of the fight but it had no apparent effect.

Cleto Locatelli outpointed Fritzie Zivic in a 10 round bout last night at Brooklyn. Zivic had a four pound weight advantage. The schedule bout between Robert Roberti and Leon Kitchell, was cancelled owing to Roberti having a cold.

Peter Walls, former jockey, who became a trainer and conditioned horses to run in his wife's name, while playing ball was struck by a deflected ball and fatally injured at Saratoga Springs, N. Y. yesterday. He was running to second when hit. Wall continued in the game apparently unhurt but collapsed later.

Lamorella was on the mound for the Shenangos and held the losers to two hits. He fanned seven men. Dina Senff Is Swimming Star

Eleanor Jarrett Thinks Senff Will Be Lassie To Take Backstroke Title

By ELEANOR HOLM JARRETT
(Copyright, 1936, by International News Service)

BERLIN, Aug. 13.—Not the favorite champion of Holland, Rita Mastenbroek, but a little 16-year-old girl was my "selection" to win the women's Olympic backstroke championship today.

My choice to take my Crown was tiny Dina Senff, who comes from Fraulein Mastenbroek's own Holland. "Senff," you know, in German means "mustard," and this young hither-to unknown Amsterdam lassie sure has been living up to her name.

A Dutch swimming expert who has been scouting and writing in the swimming stands tipped me off privately that Senff had been beating Mastenbroek almost daily in practice, which, in addition to my own observation, seemed to make it pretty probable Senff was going to smear herself all over the Olympic and maybe the world's record today.

Chids Dutchman
I told Sam Jolly, the Dutchman, right out that I didn't believe those home-made, world-beating timings chalked up for Holland's lassies, but he socked right back with a "we don't think too much of your United States stop watches either".

But I can tell you pretty Willys Denouden never nipped the clock for that 1:04.8 in the 100-meter free style. That's the world's record. They've given her, but after her showing here I have my own thoughts. Swimming savants whisper to me that she made it in one of those 25-yard baby bathtub affairs.

Township Loop Managers Meet
There will be an important meeting of the various managers and officials of the Township Baseball league at the Shenango High building at 8 o'clock Friday night. It is imperative that all managers be present at this session. There is considerable business to be transacted.

Among those who can't describe their symptoms to the doctor are horses, infants, and men whose wives are present.

Church Softball

CROTON M. E. LOSES FIRST

Croton M. E. softball team, after winning 25 or 30 straight softball games, received a rude jolting last night at Radiator field as the Third U. P. team with Hahn on the mound, kicked the Croton winning streak into smithereens with a 3 to 1 score. Hahn allowed the slugging Crotonites but three bingles.

Croton could not hit Hahn until the first of the seventh, when they got their lone run. McKibben played a sensational game for the Third U. P. team, making three scintillating stops of hard hit balls. McKibben cut short a Croton rally in the early part of the game.

Bales and Snow on the knoll for the Crotons, were found for five hits. The Third U. P. bunched hits in the first and fourth for their runs.

It was the first church league defeat for the Crotons this year.

Score by innings:
Croton.....000 000 1-1 3 1
Third.....100 200 0-3 3 1
Batteries—Croton, Bales, Snow and J. Booth; Third U. P., Hahn and McKibben.

Gridders Will Met On Friday

Former Middleweight Champion Scores Knockout In Tenth

(International News Service) YOUNGSTOWN, O., Aug. 13--Teddy Yarosz of Monaca, Pa., today was on the comeback trail toward the world's middleweight box-

ing championship after scoring a knockout over young Terry of Trenton, N. J., here last night.

Yarosz opened up in the first round with a left jab which jarred Terry nearly off his feet. In the second, the Trenton fighter received a bad cut over the left eye and he was floored twice in the fourth. Yarosz landed a left uppercut in the tenth, and Terry went down for the count.

Trading Slows Down About Noon, But Market Maintains Firm Tone

By LESLIE GOULD
International News Service
Financial Writer

NEW YORK, Aug. 13.—Trading slowed down around noon today as light profit-taking appeared in scattered sections of the list, but the stock market maintained a generally firm tone.

Steels, rail equipments, sugars, alcohols and amusements continued to set the pace on the upside, gains here running to more than 2 points. Heavy buying lifted Sloss-Sheffield preferred 13 points to 99, following the resumption of dividends on the senior issue after a lapse of more than six years.

The favorable trade situation has encouraged buying in the sugar division. American Sugar refining spurred more than 2 points on frequent appearances on the tape. South Porto Rican sugar and American Crystal also were higher.

Vanadium in steels lost part of its earlier run-up of more than 2 points, but continued well above last night's final quotation.

Republic and U. S. Steel advanced fractionally, while Bethlehem rose about a point.

Chrysler, ex-dividend \$4 a share today, moved a point higher and General Motors a small fraction.

American Car & Foundry in rail equipments spurred more than a point to a new peak for the year, as did Pullman.

Schenley, National Distillers and American Commercial Alcohol were best in the alcohols. Coppers, oils and rails moderately improved.

Utilities, though, failed to make much headway.

Grains and cotton were higher. Bonds were strong, particularly U. S. governments.

Jury Is Chosen In Mayhem Trial

Four Women And Eight Men Constitute Jury For Trial Of Coast Physicians

(International News Service)
SAN FRANCISCO, Aug. 13.—Four women and eight men were tentatively seated today as jurors in the trial of two prominent San Francisco physicians, Dr. Tilton E. Tillman and Dr. Samuel G. Goyd, accused of mayhem as a result of the sterilization of Ann Cooper Hewitt, 21-year-old heiress.

Prosecution and defense attorneys had exercised five of their twenty peremptory challenges in the keen battle to select a satisfactory jury.

Accuses Mother
Forty prospective jurors were examined at the opening day of the trial and it was doubtful whether the jury would be completed today. Defense attorneys carefully questioned talesmen concerning their personal prejudices and ethical attitude concerning sterilization.

In the background of the sensational criminal trial is a fortune of \$10,000,000 left by the late Peter Cooper Hewitt, famed inventor.

In his will, the inventor directed that two-thirds of his estate go to his daughter who has accused her mother, Mrs. Maryon Cooper Hewitt of attempting to win this share of the estate by means of the sterilization operation.

Mr. and Mrs. Clarence Rohrer of Missouri, Mr. and Mrs. J. B. Moore of Eastbrook and Mrs. Caroline Hunt of New Castle were callers in the home of Mr. and Mrs. J. R. Patterson Sunday.

Mr. and Mrs. Charles Holliday and son Donald were guests at the wedding of their son Robert to Miss Betty Stowe of Mercer which was solemnized Saturday at the Jamison summer home with Dr. J. S. Duncan officiating. Mr. and Mrs. Holliday are making their home in Butler where the groom is employed. The best wishes of their many friends are theirs for a happy married life.

Seven-Inch Baby Born In Michigan

Baby Is Being Kept Alive By Feeding It With Eye-Dropper

(International News Service)
CHEBOYAN, Mich., Aug. 13.—A seven-inch long baby, believed to be the tiniest child ever born alive in Michigan, was being kept alive here today by feeding from an eye dropper.

Dr. W. Earl Chapman said the child, Shirley Ann Boda, weighed only 24 ounces at birth Tuesday but had a good chance to live.

The mother, Mrs. Herbert Boda whose husband died about two weeks ago, also was reported doing well by Dr. Chapman.

Shirley Ann was Mrs. Boda's seventh child.

Although the family is on relief rolls, Dr. Chapman said that everything the child needed had been donated by summer residents here and neighbors.

"They're pitching together and doing everything they can to help," he said.

Welfare department officials also ordered special supplies sent to the Boda home in a poor section of the city, and promised to cut "red tape" if more supplies were needed.

city must build new sewers in North street. Were a conduit built now it might be torn up when the new sewers are laid.

Indications are that estimated expenditures for building during August will exceed the cost of building during July when \$17,755, was recorded.

It is hoped that pollution of Cascade lake will be so far eliminated by the time the lake is drained that the lake will be made a fisherman's paradise. Almost daily one can see youngsters fishing along the lake and when they end their angling they have a nice string of small fish. Were it possible to end pollution and the lake stocked with all sorts of fish it would make Cascade Parke a more popular place. Not long ago plans were put into effect that will help alleviate the condition that existed some time ago and which it is hoped will not occur again.

WILL RESURFACE GROVE CITY STREETS
GROVE CITY, Aug. 13.—The Hull Resurfacing Company of Pittsburgh was today awarded a contract for supplying and laying 25,000 square yards of bituminous road surfacing material on 2½ miles of Grove City street, improved under the federal work-relief program three years ago. The work will not cover all streets, but will be a repair proposition.

The streets have had only minor repairs since they were laid, and have developed broken spots and cracks. The repair work will be started late this month, and will put the streets in good condition for the winter.

SCHOOL REUNION BEING HELD TODAY
Along the Edinboro-Pulaski road today, former pupils of Matthews-Old Harbor school, are enjoying their annual outing.

An enjoyable program has been arranged. One of the feature speakers is ex-mayor William Gillespie.

TRAFFIC PROBLEM WORRIES GROVE CITY

GROVE CITY, Aug. 13.—As a partial solution to traffic hazards on narrow Liberty street, leading to the newly-opened short-cut to Slippery Rock, councilmen are investigating the possibility of widening the street at two curves. If possible the inside of the angular turns will be cut back, giving motorists more room to pass. Damages incurred in widening the street its entire length are considered prohibitive.

Similar widening will be done at South Center street, on a curve near Central school. If this proves feasible, the two hazards on Liberty street will also be eliminated.
